Firmware update guide

Click
"Download Firmware Zipfile"

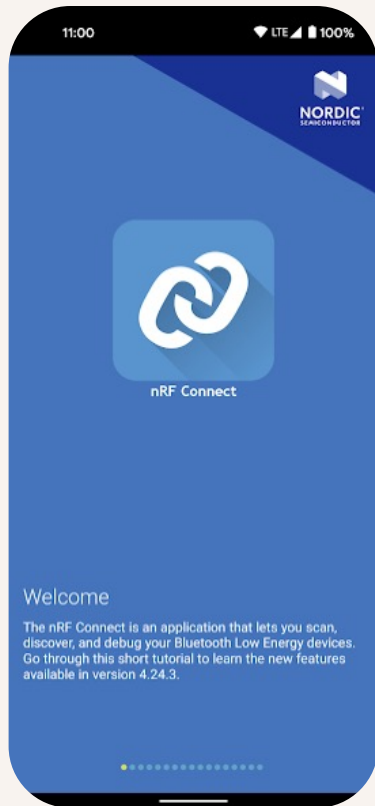

Download file

Open **Google Play** and search for
nRF Connect for Mobile or scan the
QR-code below.

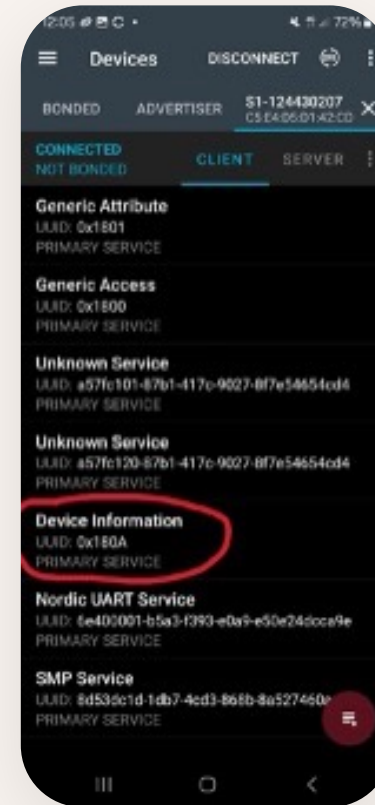

Download the app and open it.

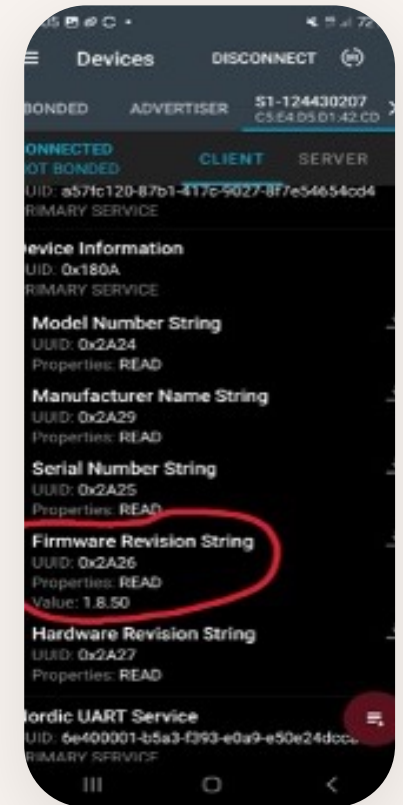

In the app connect to your charger
(serial number starting with S1)

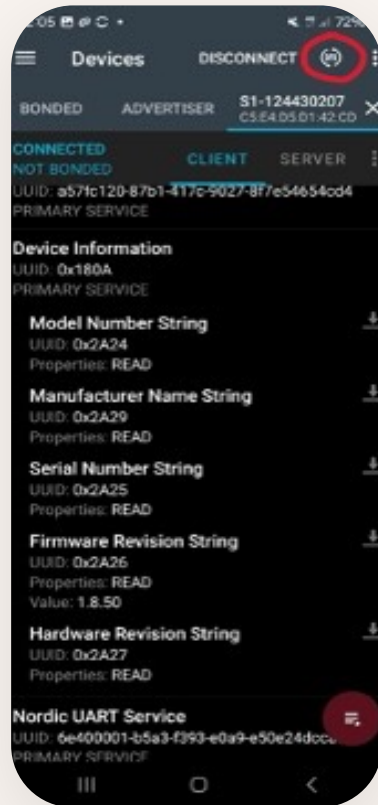

Select
"Device Information"

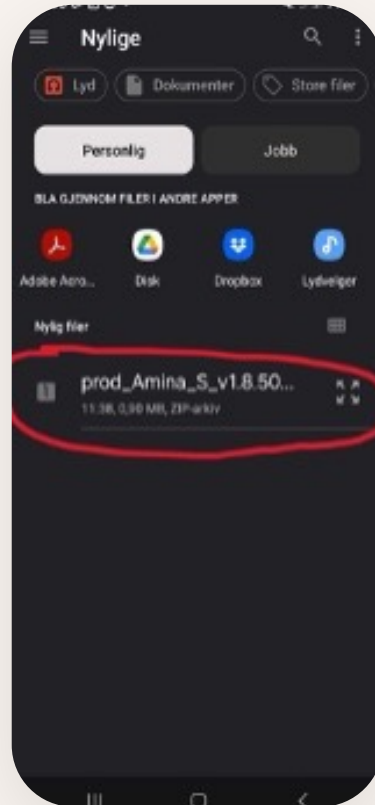

Find "**Firmware Revision String**"
to see your current firmware.

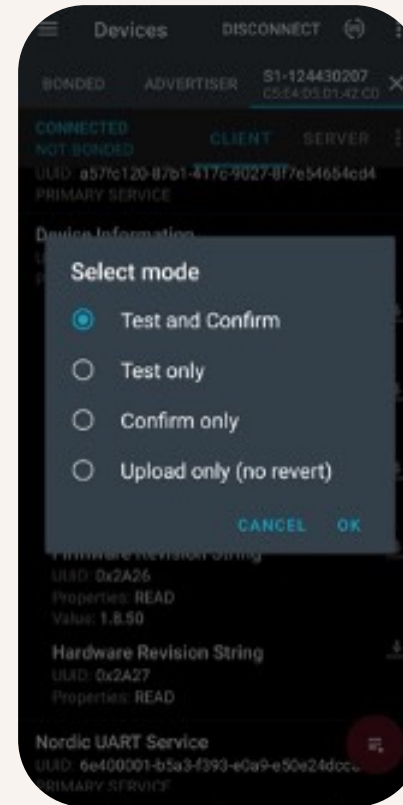

Select **"DFU"** in the top right corner

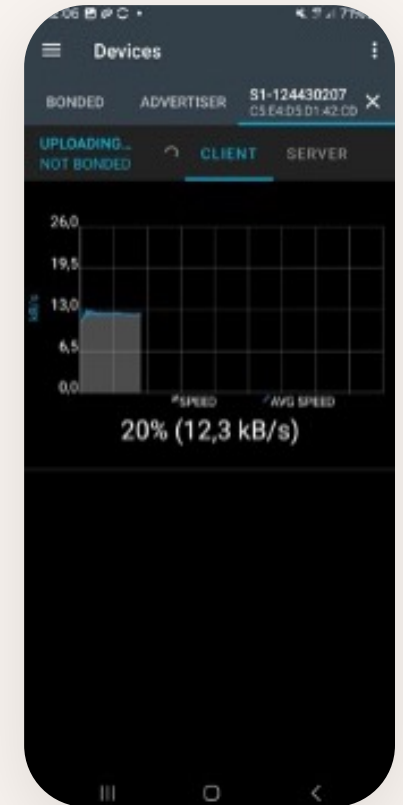

Select the downloaded ZIP file

Select **"Test and Confirm"** and proceed with **"OK"**

Wait until the update reaches **100% Twice**

When the update reaches **100%**, the charger will emit a purple light

Connect to the charger again.
Select “**Device information**”

Confirm that your charger have the
correct firmware
